

3-7

CONSTRUCTIONS Name _____

CONSTRUCT THE FOLLOWING:

- 1. The perpendicular to l at P :
- 2. The perpendicular to l from S :

S

- 3. The perpendicular bisector of \overline{JK} :
- 4. The perpendicular to \vec{BA} at A :

- 5. The perpendicular to \overline{HJ} from G :

- 6. A Complement of $\angle KMN$:

- 7. Construct the perpendicular bisector of each side of $\triangle ABC$:

8. The parallel to l
through T :

9. The parallel to m
through F :

10. A right triangle with
hypotenuse of length a
and one leg of length b :

11. An equilateral triangle
with perimeter $3a$:

12. An angle with the indicated measure:

a. 30°

b. 75°

c. 105°
